IFRA TABASSUM

Web Developer & Data Analytics Student

Faisalabad, Pakistan • ifra.tabassum@example.com • GCWUF • D4WEE Program • github.com/IfraTabassum

PROFESSIONAL PROFILE

Motivated technology student at Government College Women University Faisalabad (GCWUF) with hands-on training in frontend web development and data analytics. Enrolled in the UN Women & Karvan D4WEE initiative, specializing in translating UI design specifications into responsive web applications and transforming structured datasets into visual dashboard reports.

EDUCATION & TRAINING

Government College Women University Faisalabad (GCWUF) — **2023 – Present**
Undergraduate Degree Program

D4WEE Training Program (Tier 2 Track) — **2025 – 2026**
Collaborative Initiative by UN Women & Karvan CES
Focus: Web Development (HTML5, CSS3, JavaScript, Git/GitHub) & Data Analytics (Google Sheets, Data Visualization).

TECHNICAL SKILLS

Frontend Development
HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Flexbox & Grid Layouts

Data Analytics & Tools
Google Sheets, Data Cleaning, Pivot Tables, Charts & Dashboard Summaries

Version Control & Deployment
Git, GitHub Repository Management, GitHub Pages Hosting

Design & Soft Skills
Figma UI/UX Translation, Problem Solving, Technical Documentation

KEY PROJECTS

Personal Portfolio Website — **2026**
HTML5, CSS3, JavaScript, Tailwind CSS, GitHub Pages

- Designed and coded a fully responsive 6-section personal portfolio reflecting Figma wireframe layouts.
- Implemented interactive components, smooth scroll navigation, contact form UI, and direct resume download.
- Hosted live on GitHub Pages with complete version control.

Performance Metrics Dashboard — **2025**
Google Sheets, Data Analytics, Visualization

- Processed raw survey datasets to build structured pivot summary tables and dynamic line/bar charts.
- Identified key operational trends and generated clean report graphics for analytical decision making.

CERTIFICATIONS & ACHIEVEMENTS

- **D4WEE Web Development & Data Analytics Certificate:** UN Women & Karvan (GCWUF)
- **Figma to Code Coding Module:** Awarded for responsive layout implementation and deployment.
